ARRIVAL OF THE STEAM-SHIP ASIA.

The royal mail steamship ASIA, Captain Lock, which left New York on the 23d ult., arrived in the Mersey this afternoon, bringing 154 passengers and \$120,510 in specie.

A short telegram of the Asia's news was telegraphed from Queenstown yesterday (Saturday) evening.

The steamship Anglo-Saxon arrived at Quebec on the 21st ultimo; the steamship Edinburgh reached New York on the 22d; and the steamship Persia on the 23d—all from Liverpool.

The bill for the more effectual suppression of the slave trade, and the slavery resolutions of Mr. Davis, had occupied the attention of the United States Senate.

The President had transmitted to the Senate a message relative to the negroes captured on board the slave-trade Wildfire. They were delivered to the United States Marshal at Key West, on the 30th of April, and remain in his custody.

The President suggests some permanent arrangements with the American Colonization Society, applying to all such cases, seeing they promise to be frequent.

The House of Representatives, in committee of the whole, had been considering the bill for the more effectual suppression of the slave trade, and the slavery resolutions of Mr. Davis, which Mr. Martin, of Ohio, attacked the Republicans.

The Washington correspondent of the New York Times, under date of the 23d ult., says—"Our Government is understood to have proposed to Peru \$400,000 in full of claims, and Mr. Lincoln's commissioners are appointed to investigate the claims and pay out the money at Washington.

Peru declines the proposition; first, because it fails to recognise the principle for which she has contended; secondly, because she has no claims on Peru; and thirdly, because she has no right to demand that Peru should pay out the money at Washington.

The ceremony of exchanging ratifications of the treaty with Japan took place to-day at the State Department. It consisted merely of comparing and certifying the correctness of the ratifications.

The Japanese were still the objects of much attention. On the 26th ult. the President was to entertain the Ambassadors at dinner, to which a number of distinguished gentlemen were invited.

The nominations effected by the Chicago Convention appeared to give pretty general satisfaction to the Republicans. The Hon. Mr. Lincoln had accepted his nomination.

A Washington telegram says—"No one here seems to anticipate harmony in the Democratic ranks, and Lincoln's election is regarded as a foregone conclusion.

A crowded meeting had taken place in New York City, in which the speakers were enthusiastic in favour of Douglas.

The barque Villam, late of New York, had been taken into Key West with 650 negroes on board, having been captured by the United States steamer Wyandotte, of the Isle of Pines, on the 20th of July.

A contract was reported to be making with the Colonization Society for the support and care of the Africans captured by the Mohawk, as in the case of those found on board the Echo, and it was probable that they would be conveyed to Liberia in a chartered vessel.

The President had recognised J. C. Zimmerman as Vice-Consul General of the Kingdom of the Netherlands, at New York.

The ex-shipment of public printing had been tried in the circuit court at Washington, on charges of negligence and embezzlement while in office, and acquitted.

On the 21st ult. Cincinnati and the vicinity for many miles around was visited by the most destructive tornado, accompanied by thunder, lightning, and rain. Buildings were unroofed, steeples of churches were blown down, and crops had been prostrated, and many persons were severely injured—six, it is said, fatally.

The property destroyed in Cincinnati alone was estimated at half a million dollars. Nearly all the railroads leading out of the city were obstructed by fallen trees.

The country in the direction of Cleveland was said to have suffered the most severely. The boats on the Ohio sustained much damage; one, the Virginia Horn, was capsized, and two of the crew were lost. A train on the Covington and Lexington Railroad was thrown off the track, and the locomotive and baggage car were demolished, on charges of negligence and embezzlement while in office, and acquitted.

California advices received overlaid are to the 13th May. Business was more active from second hands than a good trade had been for some time repaired at the navy-yard free of charge. A farewell festival was given to her officers by the city officials and citizens of San Francisco.

The quart mine near Jacksonville were still yielding immensely. The Washoe silver mining continues exciting. Speculation in claims had subsided materially, capitalists offering to pay the expenses of hunting up and opening up new mines rather than purchasing at high prices interested in undeveloped lands. Every day it was reported leads which were very rich turned out of old workings, and some of which nothing has been said proved to be more valuable than all the value of arable land in and around Carson and Virginia cities was taken up, and farmers were busy ploughing and putting in crops suited to supply the transient population. The immigration

continued unabated, and since the more settled weather buildings and mining operations had advanced to an extent which was not to be expected. Preparations were making to work a copper mine in the Eldorado country. The ore assays 1,154 lbs. copper and 10 lbs. 7 oz. silver to the ton.

Advisers from Denver city, Kansas, state that the gold news was favourable; no discoveries of promising nature. Results were pouring in from the mountains. Business was still dull and very little gold was coming from the mines.

Havana dates to the 16th. There was no news of importance straggling at Havana, but no news was arriving from the interior. The shipping and vessels were in good demand and improved rates.

COMMERCIAL INTELLIGENCE. New York, May 22 (Evening).—The money market shows a tendency to greater ease.
