Memo of Sak Migeau

21 October 1857. — He says that  
was lately communicated by the Lieut Gov  
of Esquimaux that a band of 600 Eskimos  
was encamped in the district of  
Khekeke pass, has not been captured.  
The number is considered immaterial.  
The collection of so many men could not  
remain unknown. — It is probable  
that there may be a party of Kudwoshes  
also in that quarter, in the pleasuring  
amusement that, now & then, take  
place evidently show that the  
country is not altogether free  
from these people, but they are mere  
robbers, & if the law authorities were  
to adopt some stringent & prohibitive  
measures within their respective  
limits they could not move about  
long with impunity.

(3)

There has been a report in circulation in this quarter within the last week that Ewing shot, with a few followers had turned back from Sandilhead towards Adey pass & Leange. - We have yet received no authentic information on the subject. - It is not however improbable that on being pressed hard he may try to come back but when he left this part of the country, it is said, he was desirous to make a push on with the Begun of Aude if possible. -

Some instances of the looting of some villages not far from Gauri an one of the roads from Agra are reported to have lately occurred. - Suraj Singh is said to be the leader of these

Budmashes. -

With the exception of a few  
looking instances the country in any other  
respect is quiet. - There is no reported  
band of rebels heard of in this quarter. -
