SEPEVI SHAHS							

*. The Kháns (or Khakaans as they were styled) of Transoxiana are printed in capitals. The same prince sometimes is found in more than one place on the table: e. g. Kaidu, Suyurghatmish, and Baber; and two Khakaans, Ulugh Beg and Mahmood, appear both as governors and supreme Kháns. When more than one prince of the same name occurs in the table, the distinction is marked by numbers.
